

ABIEZER "ABE" REYES

FULL-STACK DEVELOPER

Orlando, FL • abe.raise@gmail.com • needthisdone.com • github.com/AbeJitsu • linkedin.com/in/weneedthisdone

Three years building production applications, grounded in seven years of learning the craft while working full-time. I started with tutorials in 2016 and kept at it until I was confident enough to go all-in as a developer in 2023. I'm still learning today, currently working through freeCodeCamp's Full Stack Developer certification.

Before tech, I led a five-person medic team in the Army and earned three promotions at Toyota over seven years.

What's stayed consistent: I stay calm when things break, I explain technical stuff without making people feel dumb, and I follow through on what I say I'll do.

PROFESSIONAL EXPERIENCE

Full Stack Developer

November 2025 - Present

needthisdone.com | Professional Services Platform

- Built and launched a responsive e-commerce platform that's live and handling real customer orders.
Designed mobile-first so it works on any device
- Handled the full stack myself: React/Next.js frontend, Node.js backend, PostgreSQL database, and Stripe for payments
- Added an AI chatbot that answers customer questions by searching the actual site content. Saves time for both customers and me
- Set up automated testing with Playwright so I can ship updates confidently without breaking what's already working

Technical Operations Specialist

Spring 2025 - Winter 2025

Acadia | Educational Platform for Financial Certifications

- Started as a contractor doing API integration work. Did good work, got brought on for client onboarding
- Became the person the CEO came to with technical questions because my explanations made sense to him
- Automated the repetitive stuff that was slowing the team down so people could focus on work that actually mattered
- Handled data migrations during client onboarding. Turned multi-day headaches into same-day completions while improving accuracy

Freelance Web Developer

January 2023 - March 2024

Self-Employed | Independent Contractor

- Built websites and automation tools for clients while learning the craft
- Went from studying tutorials to building things clients actually use

Finance Manager

Spring 2017 - Winter 2023

Toyota of Orlando | Salesperson → Sales Manager → Finance Manager

- Earned three promotions over seven years at a high-volume dealership moving 10-30 cars daily
- Worked with 3-7 customers daily, walking them through their options and putting together financing across different lenders
- Built trust with customers by explaining options clearly. Became the go-to person when teammates had complicated deals

Military Enrollment Counselor

2012 - 2017

Full Sail University | International Admissions → Military Student Services

- Started in International Admissions, then moved to Military Student Services where my Army background gave me credibility with veterans navigating civilian life
- Guided service members and families through GI Bill benefits, program costs, and fitting education around military schedules

Combat Medic, Corporal (E-4)

1996 - 2001

U.S. Army | Fort Hood, TX & Fort Bragg, NC

- Led a team of 3 medics and 2 combat lifesavers. Delivered emergency care where mistakes cost lives and hesitation wasn't an option
- Learned to stay calm under pressure, follow protocols precisely, and take responsibility for my team's performance

FEATURED PROJECT

needthisdone.com

Live at needthisdone.com

- Responsive, mobile-first e-commerce platform built from the ground up
- User authentication, product browsing, shopping cart, and order tracking
- Secure checkout integration with Stripe payment processing
- Admin dashboard with business management tools
- AI-powered chatbot using semantic search for customer questions
- Comprehensive automated testing with Playwright for reliable deployments

EDUCATION

Full Sail University (2016 - 2017): Web Design & Development coursework, 4.0 GPA. Started learning web development here and haven't stopped since.

Self-Directed Learning (2016 - 2023): Eight years of consistent skill development while working full-time. Progressed from tutorials to building production applications. This sustained commitment built the foundation for professional development work.

Structured Coursework (2023 - Present): freeCodeCamp Full Stack Developer Certification (in progress), Khan Academy CS Principles (100% mastery), Vue.js Complete Guide, 100 Days of Code. Filling in gaps and sharpening skills I've been building for years.

U.S. Army Medical Department Center & School (1996 - 2001): Combat Medic certification. Graduated top 10% of class.
